Cembrit is part of one of Europe's leading manufacturers of building materials: Cembrit Holding. The Group's main products are fibre-cement based roofing materials and cladding. To bring out the best in these products a range of specially adapted fittings and supplementary equipment has been developed. This makes it possible to find a architectonic solution to any roofing or cladding assignment - whether the building in question is for business, private, farming, industrial or any other purpose. The products are manufactured at technically advanced and professional factories and they are sold through a professional network of subsidiaries and distributors. Our expertise and personal commitment are integral parts of all Cembrit solutions, whether they are concerned with products, service backup or partnership.
